Minot State University

M.Div. Theology
Southern Baptist Theological Seminary

EXPERIENCE

Python & Data Science | The Iron Yard

September - December 2015

Successfully completed intensive immersion program for backend development and data science using the Python language. Built fully functional Django web app for final project and successfully deployed on AWS. First student to complete all assignments to instructor's satisfaction on first attempt.

Associate Pastor | Grace Bible Church

October 2013 - July 2015

As administrator, managed daily operations for church of 175 people, including infrastructure, volunteer coordination, and finances. Guided budget with yearly increase of 8-10%. Helped launch new church website with new logo and purchase new exterior signage.

Client Manager & Client Support Rep | IBM

June 2011 - September 2013

As client manager, managed telecom accounts for multiple SaaS clients, achieving 100% client satisfaction. Generated savings and cost-avoidance of \$500k on more than \$5M annual spend. As client support rep, provided phone and email support to end users in a web-based environment. Promoted from client support rep to client manager in less than two years.

Sales & Customer Service | AT&T & Verizon Retailers

April 2004 - June 2011

Consistently named as a model of integrity and customer satisfaction by fellow sales reps and customers during seven years in the telecommunications industry.
